Lab 5

Bootstrap Framework Continuation (Javascrip & Jquery)

In this lab, we will cover Bootstrap components (like carousel, collapse, Tooltips, Scrollspy, Modals, popovers) and see how they can make web development faster and easier.

Task 1:

Carousel

Task 2:

Collapse

Note:

Make a proper lab report with screenshots (your name should be visible in each screenshot) and upload it in PDF form. Submit the .html and .css files too.

Plagiarism will be marked ZERO for both parties. Copying templates from the internet would also be marked ZERO.
